With now more than 30 original characters in the DOA series, it is getting harder and harder to come up with ideas for new gameplay individualities and unique characters. This document is just an attempt to take part in the creation process of newcomers for the future of Dead or Alive. These are not requests, only ideas based on popular video game stereotypes and on the leading gaming countries by gaming revenues. Enjoy!

APPENDIX

A. Dharma Ballet (Sultana's fighting style)

It is a fictive fighting style that would require Sultana to use each stance for a particular strategy, depending if you're looking for crawling, launching, spacing, stunning, jumping, etc. I got the idea from Lei-Fei (Virtua Fighter) and from the India philosophy, but I imagine it more exotic and supple. Stances and animations take inspiration from real life animals, ballet, contemporary dance and contortionists.
